

MAKE IT MEMORABLE!

Incorporating a team building session into your conference and/or taking full advantage of our team development workshops will build relationships, improve communication and problem solving skills resulting in a happier, more productive environment. Our friendly and experienced facilitators will discuss the outcomes you are looking for and help you arrive at the best design for your team!

OUTDOOR TEAM BUILDING OPTIONS

1.5 – 2 hrs TEAM FOCUS ACTIVITIES!

These facilitated activities are designed to be engaging rather than physically challenging. Encouraging equal contribution from all members, these challenges are not only highly engaging and lots of fun, but will also improve your team's ability to solve problems together and achieve improved results back at work. The activities – Step on it!, Optimisation, Get Smart and many others, give flexibility in designing a session to suit the size and desired outcomes of your group.

2 – 3 hrs REACH FOR THE SKY!

A high ropes course is the ideal way to “stretch the comfort zone”, build confidence and raise self-esteem. With your team mates controlling the safety ropes under supervision of experienced facilitators, people experience levels of trust and support rarely experienced in a work environment. Your team will bond through this powerful experience and return to work motivated and ready to take on any challenge!

3 hrs THE AMAZING RACE!

Armed with a digital camera and map the aim of the activity is to use your cunning and team skills to achieve the highest point score possible! Small teams venture out into the local area in search of different checkpoints and further information, not to mention the roadblocks they encounter at various times. A great way to see the points of interest in the local area plus build relationships across the team!

ADVENTURE ACTIVITIES – Spring Kayaking & Summer Caving & Biking

Whether it be an exhilarating paddle down the Yarra, exploring the underground tunnels of Britannia Caves or taking in the great scenery as you cycle along the Warburton Bike Trail, Oscar's has it all!

EVENING EVENTS

BIG GIG

The Big Gig is a highly entertaining team spirited activity based on the popular TV show 'Spicks 'n' Specks' encouraging participants to meet the entertainment challenges by pooling resources, beat the buzzer and indoor action brings out surprising latent talents in everyone. There is also the option of fancy dress (ask us about our suggested themes) and a client specific focus to questions and content.

WHO DUNNIT?

You may have been to a murder mystery, but have you played it in teams? Each team table has a group is given an identity such as De Shonkey Sales Corp. and of course each has their own motive for the crime. Lots of laughter as the teams play out their roles - a great way to make dinner fun and keep the interaction happening across the whole group!

AFRICAN DRUMMING

Traditional African music reflects the communal nature of African life- people need to work together (drum together) to achieve their goals. This “hands on” experience gives your team a good feeling about achieving something new together – a truly unique team experience!
